

ENDOCRINE SYSTEM TERMINOLOGY

endocrin/o- endocrine (endo=within, crin=secrete)

endocrinology
endocrinologist
endocrinopathy
endocrinotherapy
endocrinasthenia

hormon/o- hormone (to set into motion)

hormone
hormonogenesis
hormonology
hormonopoiesis
hormonotherapy
hormonotropic

pineal (pine cone)

pinelectomy
pinealocyte
pinealoma
pinealoblastoma
pinealopathy

thyr/o- thyroid/o- thyroid (shield)

thyrotoxicosis
hyperthyroidism
hypothyroidism
thyroidectomy
thyroidotomy
euthyroid
hemithyroidectomy
thyroiditis = Hashimoto's disease
thyropathy
thyroprivia
thyroxin
thyroadenitis
thyrocele
thyromegaly

thyropenia
thyroptosis
thyrotome
thyroplasia
thyroaplasia
TSH= thyroid stimulating hormone
thyroidomania
thyrotropin
thyrogenous

-physis growth

hypophysis
adenohypophysis
neurohypophysis
hypophyseal stalk

adren/o- adrenal/o- adrenal (ad=near, ren=kidney)

adrenitis
adrenomegaly
adrenalectomy
adrenocorticotrophic hormone (ACTH)
adrenocorticohyperplasia
adrenopathy
adrenal hyperplasia

cortic/o- cortex (outer portion)

cortex
cortical
corticoid
cortisol
cortisone
corticosteroid
mineralocorticoids
glucocorticoids

parathyroid/o- parathyroid

parathyroidism
parathyroidectomy
parathyropathy
parathormone
parathyroidoma
parathyropathy

thymus- thymus gland

thymectomy

thymotoxic

thymoprivic

thymitis

thymocyte

thymokesis

thymolysis

thymoma

thymopexy

thymopoietin

Other related parts:

acro-	extremities	acromegaly
myxa-	mucus	myxedema
edema	swelling	
oxys-	rapid	oxytocin
tokos	childbirth	
lacto-	milk	prolactin
calc/i-	calcium	calciometer
		hypercalcemia
		hypocalcemia
		calcipenia
dips/o-	thirst	polydipsia
kal/i-	potassium	hyperkalemia
		hypokalemia
		kalipenia
glyc/o-	sugar	hypoglycemia
		hyperglycemia

Addison's disease

cretinism

Cushing's syndrome

diabetes mellitus

gigantism

dwarfism

goiter

tetany

exophthalmic

cachexia

hypogonadism
