

Integrating Careers and History

OBJECTIVE / RATIONALE

The health care industry is comprised of diagnostic, therapeutic, informational, and environmental systems that function individually and collaboratively to provide comprehensive health care. The student will survey and research the historical significance of health care and the evolution of careers.

TEKS 121.2 1E, 6A

KEY POINTS

- I. Review historical development of health care.
- II. Evolution of health careers.
- III. Introduce current medical careers.

ACTIVITIES

- I. Research and create a timeline of a health career opportunity.
- II. Develop an oral report to cite changes in the health industry that affected your chosen career.

MATERIALS / RESOURCES

Any source(s) of career exploration and medical history; **career resources**; career related journal or magazine.

ASSESSMENT

oral presentation rubric; **project rubric**

ACCOMODATIONS

For reinforcement, students will create a “Medical Hall of Fame” in which they identify several nominees based on their contribution to medicine.

For enrichment, students will debate the actions of a career or individual from history that encouraged the development of a medical career using the HOSA Event Guidelines as a reference.
