

SECTION III. RESEARCH IMPLEMENTATION

Research Project Implementation Research Project Data Collection Research Project Re-evaluation

Teacher Notes: During these phases of the student's project it is vital that the teacher set due dates and schedule appointments to meet with each student to check progress. If a problem or difficulty is detected, it can be corrected immediately allowing the student to progress in an efficient manner.

The teacher will examine the student's logbook and make written recommendations to the student. Include date, time and location of meetings. Check to see that the student is meeting with their mentor for advice on the project as it progresses. Student should have the mentor sign and date their logbook during each meeting.
